

DUMP STATION ESTABLISHED IN NORTHEAST PIERRE
FOR IMMEDIATE RELEASE

PIERRE – A temporary RV dump station has been established in northeast Pierre, near the Northstar Mobile Home Court.

Mayor Laurie Gill said many local residents who were displaced by flooding are temporarily living in campers and RVs. These living arrangements, she said, have created a real need for sewer and wastewater disposal facilities. The station is located on Crested Avenue, north of Elizabeth Street.

“We sincerely hope this facility will meet our community’s needs and we will closely monitor its use,” Gill said. “This is not a permanent facility, but it is definitely needed as we transition into whatever ‘normal’ will be for next several weeks.”

Gill said people using the dump station are encouraged to enter from the south and exit to the north. A location map with suggested traffic flow is located on the City of Pierre’s website: www.pierre.sd.gov.
